Applications

Residential: Bistrou is the solution we came up with while designing compact furniture for urban patios, rooftop terraces and balconies. The design responds to the trend for smaller living. Perfect for city dwellers!

Project: For hospitality or corporate lunch areas, indoor and outdoors.

Floor fastening

Our Bistrou picnic table can be fixed to the floor, to prevent them from being moved, or worse, from being stolen. However, attaching it to the floor is not always enough, as bolts can always be unscrewed. We offer a connection piece that replaces the end cap at the bottom of a table leg.

Good to know

- Fits a terrace or balcony of 1.2 x 1.2 meter.
- Water draining seat.
- Bistrou combines perfectly with Virus.
- Tabletop cut-out to fix accessories.

- Stackable up to 4 pieces.
