Depuis plus de 30 ans en Belgique, nous mettons tout en œuvre pour adapter votre espace de travail aux exigences spécifiques de votre activité et celles de vos collaborateurs. L'environnement de travail est devenu, depuis quelques années, une composante primordiale dans la performance et l'épanouissement au travail. Il contribue à la motivation et est considéré comme un des éléments importants du plaisir au travail. Aménager l'espace est à la portée de tous mais l'adapter aux besoins individuels requiert une parfaite connaissance des produits (ergonomie, confort, qualité, durabilité) et des besoins de chacun.
